Make sure that you have done what you believe you have done.

# Installing Program Updates

## 1. Do you need the updates?

Check the Version number in your *PsycPrac* against the version number displayed on the Free Download page at <http://psycprac.com/download.htm>.

2. In this example you do need the updates. Your version is 2491 and the latest version is 2495.

## Installing Program Updates

3. Go to <http://psycprac.com/download.htm> and follow the instructions for downloading the PsycPracPro10ProgUD.exe file to your desktop. Just overwrite any existing files by that name.

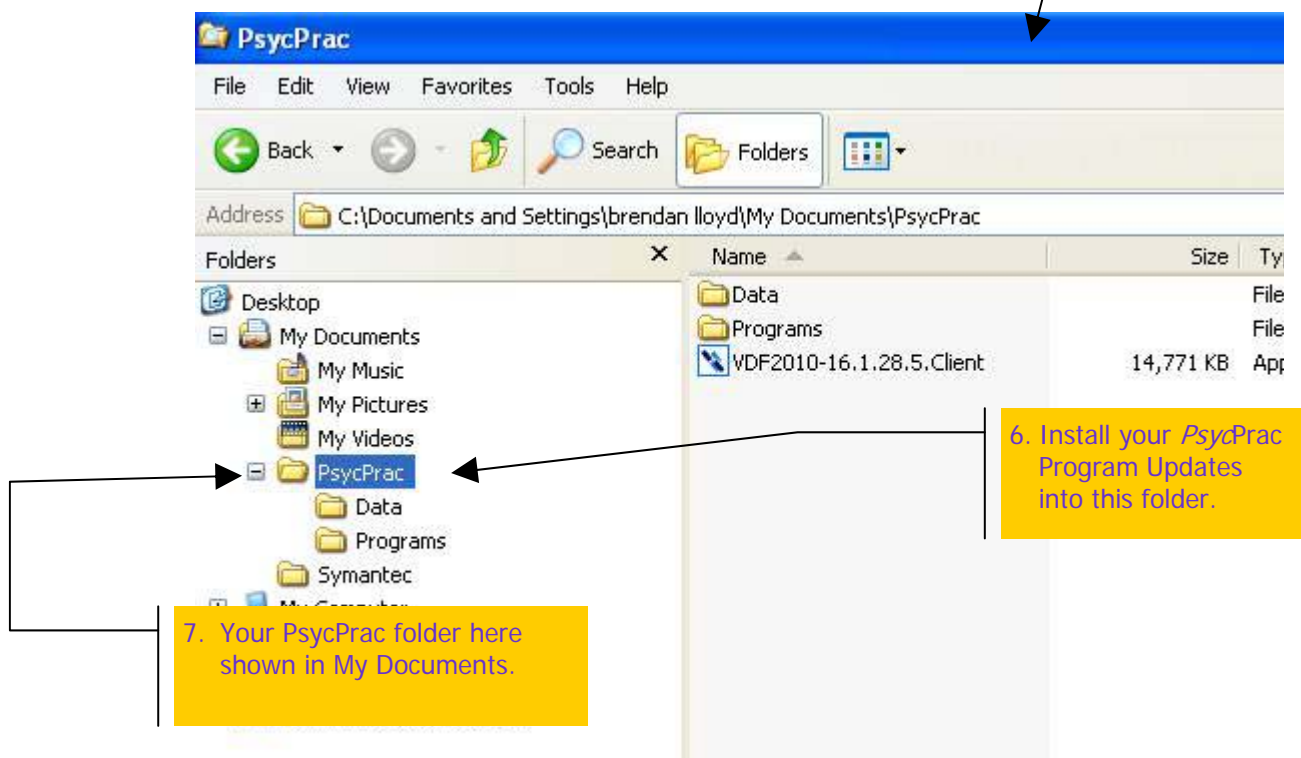

4. Unpack the zip file — PsycPracPro10ProgUD.exe.

To save time simply follow the instructions.

- i. At this point you have downloaded PsycPracPro10ProgUD.exe to your desktop.
- ii. Click on the PsycPracPro10ProgUD.exe to open it.
- iii. In the UnZip Wizard, click the Browse button to select the PsycPrac folder. Eg. C:\...\My Documents\PsycPrac.
- iv. **Do not unpack onto your desktop.** Once you have selected the PsycPrac folder, click Unzip.
- v. The process should overwrite the Programs folder in your PsycPrac folder. The path for the Programs folder is...  
C:\...\My Documents\PsycPrac\Programs

5. The screen-shot below shows the end result of settling *PsycPrac* in your "My Documents\PsycPrac" folder. See how Windows Explorer is configured. There is the Navigation panel on the left and the content panel on the right.

For unzipping the Programs Updates, in this example, select the PsycPrac folder in the My Documents folder.
